

### Using VMware Horizon on personal device and outside the JPS Network

Access your applications on-the-go from any location using VMware Horizon via the web or through the VMware client. You will be required to use multi-factor authentication (MFA) if you are not on the JPS network

#### VMware Horizon in Web Browser

- 1. Navigate to <a href="https://portal.jpshealth.org/">https://portal.jpshealth.org/</a>
- 2. Click the VMware Horizon icon.

3. Click "JPS Internet Browser Access" – If you would like to always use the Web **Click** Check here to skip this screen and always use HTML Access.

4. Enter your JPS username and password.

	ø JES
	Enter your JPS Health Network user name and passcode
aller -	Username
alland son and	Passcode
and the second second	Login
	Cancel

5. You will get a screen for multi factor authentication. Click Accept
